

“Chemistry in Comics”

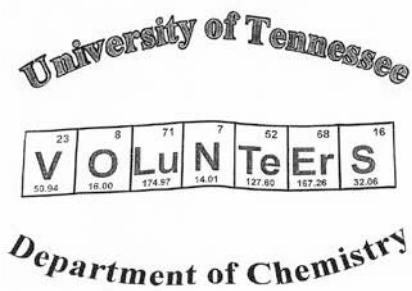

Humor me!!!

Tuesday, March 26, 2013 @ 5 pm
1720 Chemistry Building
Western Michigan University

Free Public Event
Enjoy Pizza & Snacks
Join & Laugh

Just as humor is most entertaining when its theme fits the topic of conversation, so too comics that depict chemistry situations and/or materials are most effective as a teaching strategy when they reinforce a topic or concept that is being studied. A variety of chemistry comics will be presented, and the learning situations into which they best fit will be discussed.

Presented By ACS Tour Speaker
Dr. Al Hazari
